

Shandong Jufu Chemical Technology Co., Ltd.

Material Safety Data Sheet

REDISPERSIBLE POLYMER POWDER

Section 1 : Chemical Product and Company Identification
Product Name :REDISPERSIBLE POLYMER POWDER
Model: RDP 2000 CAS #: 24937-78-8
Contact Information :
SHANDONG JUFU CHEMICAL TECHNOLOGY CO.,LTD.
Address: Bld.4-1001, No.2177, Tianchen Rd., Jinan, Shandong, China-250101
TEL/FAX : 86-0531-88987705

Section 2 : Composition and Information on Ingredients

Formula : (C2H4)x.(C4H6O2)y Molecular Weight :342.43 g/mol CAS-No. :24937-78-8 EC-No. :429-840-1 No components need to be disclosed according to the applicable regulations. Main components :mixture

Section 3 : Hazards Identification

3.1 Classification of the substance or mixture

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008 This substance is not classified as dangerous according to Directive 67/548/EEC.

3.2 Label elements

The product does not need to be labelled in accordance with EC directives or respective national laws.

3.3 Other hazards – none
In-taking Pathways: drug abuse, skin or eyes contact
Health hazards
Eye contact: May cause eye irritation, redness, tearing or blurred vision
Skin contact: None.
Inhaling: If accidental poisoning, it will cause few gastrointestinal stimulated, no obvious symptoms.

Section 4 : First Aid Measures

4.1 Description of first aid measures General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

If breathed in, move person into fresh air. In case of skin contact Wash off with plenty of water. In case of eye contact Flush eyes with water as a precaution. You should rinse the eyes, if it splashes in. If swallowed Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. Please drink enough water to spit if you accident drink it, or else consult a physician. 4.2 Most important symptoms and effects, both acute and delayed The most important known symptoms and effects are described in the labelling (see section 2.2) and/or

in section 11

4.3 Indication of any immediate medical attention and special treatment needed no data available

Section 5 : Fire Fighting measures

5.1 Extinguishing media

Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

5.2 Special hazards arising from the substance or mixture

Sulphur oxides, Sodium oxides

5.3 Advice for firefighters

Wear self-contained breathing apparatus for fire-fighting if necessary.

5.4 Further information

The product itself does not burn.

Section 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures Avoid dust formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. For personal protection see section 8.

6.2 Environmental precautions

To undertake ventilated, eliminate the leakage area fire to avoid breathing vapor, foam cover large spills to reduce steam hazards.

6.3 Methods and materials for containment and cleaning up

Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in

suitable, closed containers for disposal.

6.4 Reference to other sections

For disposal see section 13.

Section 7: Handling and Storage

7.1 Precautions for safe handling

Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2.

7.2 Conditions for safe storage, including any incompatibilities

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

Hygroscopic

A part from the uses mentioned in section 1.2 no other specific uses are stipulated

Section 8: Exposure Controls/Personal Protection
8.1 Control Parameters
Components with workplace control parameters
8.2 Exposure controls
Appropriate engineering controls
Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at
the end of workday.
Engineering control: Comprehensive ventilation or local exhaust.
Personal protective equipment
Eye/face protection
Use equipment for eye protection tested and approved under appropriate
government standards such as NIOSH (US) or EN 166(EU).
Skin protection
Handle with gloves. Gloves must be inspected prior to use.
The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the
standard EN 374 derived from it.
No special body protection.
Respiratory protection
Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use
type N95 (US) or type P1 (EN 143) dust masks.
Use respirators and components tested and approved under appropriate government standards such as
NIOSH (US) or CEN (EU).
Control of environmental exposure

Prevent further leakage or spillage if safe to do so.

Section 9 : Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

a) Appearance Form: Powder Colour: white

b) Odour : no obvious odor.

c) Odour Threshold :no data available

d) pH 7,2 - 8 at 50 g/l at 20 °C

e) Melting point/freezing point Melting point/range: 175 °C

f) Initial boiling point and boiling range : no data available

g) Flash point not applicable

h) Evapouration rate: no data available

i) Flammability (solid, gas) no data available

j) Upper/lower flammability or explosive limits no data available

k) Vapour pressure no data available

I) Vapour density no data available

m) Relative density 1.39 g/mL at 25 °C

n) Water solubility : soluble

o) Partition coefficient: n-octanol/water no data available

p) Auto-ignition temperature no data available

q) Decomposition temperature no data available

r) Viscosity no data available

s) Explosive properties no data available

t) Oxidizing properties no data available

9.2 Other safety information

Bulk density 550 kg/m3

Section 10 : Stability and Reactivity Data

10.1 Reactivity: no data available

10.2 Chemical stability

Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions: no data available

10.4 Conditions to avoid High temperature, fire.

10.5 Incompatible materials: Strong acids, Aluminum, Magnesium

10.6 Hazardous decomposition products

Other decomposition products - no data available

Polymerization harm: no polymerization

Taboo thing: strong oxidizer, strong acid, strong alkali.

Section 11 : Toxicological Information

None poison effect.

Section 12 : Ecological Information

12.1 Ecological Toxicity

None environmental poison effect.

12.2 Persistence and degradability: no data available

12.3 Bio-accumulative potential no data available

12.4 Mobility in soil no data available

12.5 Results of PBT and vPvB assessment PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

12.6 Other adverse effects

Harmful to aquatic life.

Section 13 : Disposal Considerations

13.1 Waste treatment methods

Send to the environment & Sanitation department or special place.

Section 14 : Transport Information

14.1 UN number ADR/RID: - IMDG: - IATA: -

14.2 UN proper shipping name ADR/RID: Not dangerous goods IMDG: Not dangerous goods IATA: Not dangerous goods

14.3 Transport hazard class (es) ADR/RID: - IMDG: - IATA: -

14.4 Packaging group ADR/RID: - IMDG: - IATA: -

14.5 Environmental hazards ADR/RID: no IMDG Marine pollutant: no IATA: no

14.6 Special precautions for user Transportation notice: Avoid the vessel leakage, you must be light load & unload. When in the summer.

Section 15 : Regulatory information

This safety data sheet complies with the requirements of Regulation (EC) No.

15.1 Safety, health and environmental regulations/legislation specific for the

substance or mixture : no data available

15.2 Chemical Safety Assessment

For this product a chemical safety assessment was not carried out

Section 16: other Information

Further information
